HubSpire

A Minority/Disadvantaged Business Enterprise (MBE, DBE, and SBE Certified) Specialized in Information Technology Management Consulting & Development

HubSpire is a high-powered technology team that is passionate about building game-changing solutions for the Public Transportation Industry. We provide IT Services, Design/Development and Management Consulting to Transit Agencies, Prime Contractors, and Corporations.

HubSpire has successfully completed projects for the MTA New Fare Payment System; these projects include the OVD (Onboard Validation Device) Project, which is a Mobile Application for Internal Employees such as Inspectors, and the second project which is the Dashboard Data Visualization & Analytics for management oversight of the entire New Fare Payment System. We are currently working on the Sales/Tickets/Validation mobile application for the LIRR and METRO North which will be used by Conductors and Station Agents to sell and validate fares.
